

Workshops for Students

HIGH SCHOOL STUDENTS (KS3, GCSE, A LEVEL)

Les Enfants Terribles can come to your school and offer workshops in a range of performance styles and theatrical concepts as well as **SHOW SPECIFIC WORKSHOPS**. Alongside our workshops, we will provide you with the resources to understand our shows in greater detail by creating education resource packs. This will give you the vocabulary and ideas to create amazing work in your lessons. Read more about our **EDUCATION RESOURCE PACKS** [here](#).

We also offer workshops in:

IMMERSIVE THEATRE

To help you understand this exciting and engaging way of theatre making, this workshop will use Les Enfants Terribles' immersive shows to demonstrate the creative work that goes into making an immersive show.

Students will participate in exercises that cover the improvisation and audience engagement skills needed, and the ensemble skills used, to build exciting atmospheres for the audience. We will explore the idea of adapting a text to make it immersive, building an atmosphere, considering the role of the audience and how to achieve your desired aesthetic. This workshop can be helpful in adapting scripted performances into new styles, as a way of engaging students in the exciting world of AO3, and building knowledge and understanding of how theatre and performance is created.

(AO1, AO2, AO3)

DEVISING

To help you get started on your devising piece for the exam, we will lead warm ups and exercises that explore the stimulus theme and generate new ideas, develop the piece in practice, use exercises to heighten your vocal, physical and staging skills and evaluate the successes and challenges of these to help in the rehearsal process.

We can also help you apply the work of your chosen practitioner, if your exam board requirements include this outcome. The workshop will also include moments of reflection to assist you in creating your log book or working notebook. (AO1, AO2, AO3, AO4)

DESIGN AND PUPPETRY

We can come to your school and run an exciting and engaging workshop in the design aesthetic of Les Enfants Terribles.

Using examples from a number of our shows, we will show you how our puppets grew from a simple idea, to illustrations, and then to living, moving creatures on stage. We will talk you through the use of sound and lighting design, using examples from our technical rehearsals to show you the ingredients of making a show.

We will show you the draft images of our set and costume design and discuss the elements of design used to create our aesthetic. The workshop will provide an opportunity for you to create your own design briefs for your own and to assist you with design questions. (AO1, AO3, AO4)

ACTING

This workshop offers an opportunity for students to enhance their performance skills as they prepare to work with text for either GCSE or A Level performance tasks.

We will focus on both vocal and physical technique as well as ensemble skills and rehearsal techniques so that your group have some strategies for your working notebooks, reflective reports or practical rehearsal lessons. We can either help you with your chosen set text, or bring along a Les Enfants Terribles play to use as an example. (AO1, AO2, AO4)

FURTHER AND HIGHER EDUCATION

Les Enfants Terribles can provide workshops at your further or higher education institution to enhance your academic content. We can offer targeted experiences for emerging designers, actors, producers and directors by meeting with your course leader to develop a bespoke experience to share our knowledge and supplement your course content.

Get in touch at workshops@lesenfantsterribles.co.uk to see how our team can get involved in your Undergraduate or Post graduate course.
