

Les Enfants Terribles

Our education and outreach team is committed to providing multifaceted and dynamic material that is clear, creative and joyous for the audiences with which we engage. We recognise that learners come to our work from diverse and varied backgrounds and we aim to develop resources and opportunities that are unique for the groups we work with and which directly impact their ways of working and creating.

Our education material is curriculum-focused and classroom-friendly to help to lighten the work-load of teachers and inspire the creativity of students.

Workshops

We have workshops to suit all academic levels, from early years up to post-compulsory schooling. We also offer a range of workshops aimed at undergraduate and postgraduate studies. We offer a range of workshops in:

- Immersive Theatre
- Puppetry
- Devising
- Design

Our child protection policy is available [HERE](#)

Digital Workshops & Seminars

All of our workshops can be adapted for digital delivery to allow for social distancing, isolation or working with international groups.

Resources

We have a range of resources and education packs available, get in touch to find out more!

Teacher CPD

We offer events for teachers to upkeep their professional development, these events focus on the skills and resources needed to teach our content and approaches to theatre making. These are advertised through our mailing list which you can subscribe to [HERE](#).

Additionally, we have our '45 for £45', a clinic system for one to one professional development for teachers.
